

SUGAR & SPICE

with all things nice, that's what
Cardhu Christmas is made of!

CARDHU Does Sugar & Spice with All Things Nice This Christmas.

"Christmas time, mistletoe and... CARDHU" – leave the wine for later, hopefully some of you will know the lyrics to the Cliff Richard Christmas classic. It's time for our favourite season of all as we get set for Christmas, and we have every colour you need, from the traditional red and green to white and woodland themes that will add festive magic to your home this wintertime.

Our decoration collection this year falls under the 'Sugar and Spice' theme and includes the stunning Gingerbread Houses, Gingerbread men tree decoration and the snow globe is by far one of our leading items of the season – it also plays, "We Wish you a Merry Christmas" – what's not to love. The alpine woodland range celebrates the autumnal colour range with Pom Pom Booties and small artificial, Christmas Pine Tree that would be the ideal addition to the coffee table. Let's stick with the coffee table and why not add a customer and seasonal best seller, the Ivy & Twine, Winter Spice Candle – the aroma captures the moments perfectly, handmade in Scotland too.

We have so much to choose from in our gifting and lifestyle selections in-store. With cosy turtlenecks and gilets to either keep you warm or as a gift for a loved one. If it's gloves, scarves or hats you're into – the powder range has some incredible designs and all purchases come with a gift bag, (saves you wrapping).

The wall art collection also welcomes some new styles that will be perfect for any home this Christmas including the large Woodland piece and the Scottish Stag and Highland Cow frames, and plenty more to browse and choose from.

We look forward to welcoming you in-store this season and remember our Sunday 3rd November event from 12 – 4pm. We will also be open Sunday 17th November as Troon delivers, Wintertainment.

Merry Christmas from Jenny and the team x

A piece of CARDHU in everyone's home this Winter | #Sugar&Spice
